

CITIZEN JOURNALISM

in the time of corona virus

[@rowenaparaan](#)

What we will talk about

- Crowdsourcing and citizen journalism
- Citizen journalism in the Philippines
- Role of citizen journalism in the pandemic

An aerial photograph of the 2013 Boston Marathon. A large crowd of runners is seen on a city street, moving away from a large blue and yellow archway that serves as the race's starting line. The archway features the text "2013 BOSTON MARATHON" and logos for "John Hancock" and "adidas". Spectators line the sidewalks, and various flags are visible along the route. The scene is captured from a high angle, showing the scale of the event.

COVID-19: A Year in Review

COVID-19: A Year in Review

Taylor Engle - January 28, 2021

This time last year, the world was first learning of COVID-19. Chilling scenes from Wuhan, China offered a glimpse into what would happen around the world in the coming weeks and months. From hospital corridors overrun with patients to empty supermarket aisles and stranded cruise ships, the COVID-19 pandemic has tested healthcare systems and the human spirit over the last year.

Tracking the impact of the virus around the globe, from the initial outbreak in Wuhan through to the ongoing vaccine rollout, Storyful has verified almost 3,000 videos and stories, creating one of the world's most comprehensive archives of social videos and stories relating to the COVID-19 pandemic. Storyful journalists have curated a video retrospective of the impact of the virus over the last 12 months.

About

Bellingcat is an independent international collective of researchers, investigators and citizen journalists using open source and social media investigation to probe a variety of subjects – from Mexican drug lords and crimes against humanity, to tracking the use of chemical weapons and conflicts worldwide. With staff and contributors in more than 20 countries around the world, we operate in a unique field where advanced technology, forensic research, journalism, investigations, transparency and accountability come together.

Our Work

Bellingcat's innovative approaches to using publicly available data and citizen journalist analysis have been particularly significant for advancing narratives of conflict, crime, and human rights abuses. We have produced investigations on these issues in coordination with partners and allies and expanded our training so that a growing corps of citizen journalists is poised to pursue these stories alongside us.

- Throughout the years, we've made crowdsourcing calls on our Twitter accounts to help us out and others with investigations.
- Our largest crowdsourcing effort came during the January 6 Capitol Riot in Washington, D.C., where we called on people to send us any images from the event that they found online.
- We received over 650 submissions, and published one article and collaborated on a video series with NBC with that material.

HULING TUGTUG

Sa gitna ng pananalasa ng Bagyong #OdettePH, sinikap ni Niel Jon Salcedo na magpatugtog ng kaniyang two-decade-old piano habang binabaha ang kanilang bahay sa Barangay Kauswagan, Cagayan de Oro City kahapon. Ayon kay Niel Jon, maaaring ito na ang huling tugtog niya sa kaniyang piano bago ito masira dahil sa baha. ... See more

ULAM SA KEYBOARD?

Mga ulam at pagkain ang disenyo ng isang netizen para sa mga keycap ng keyboard niya. Kuwento ni YouScooper Scher Padilla, nagsimula siyang gumawa ng artisan keycaps nang niregaluhan siya ng kaniyang boyfriend ng bagong keyboard. Naisipan niyang palitan ang isa sa keycaps na may disenyo ng fried chicken at kalaunan ay naisip niyang gumawa ng iba't ibang miniature food sculptures.

How can citizen journalism help?

- Highlight community issues.
- Call attention to emergencies.
- Provide updates from the ground on important issues, such as elections, calamities, etc.
- Provide a venue for sharing positive experiences.

Hello Bayan Mo, Ipatrol Mo!

I would like to report a case here in my area. The Barangay Officials opened the Basketball Court for kids, teenagers, and other age groups. They allowed po na maglaro ang mga tao especially kids and teenagers without following the health protocols.

I am worried for my community especially now na may DELTA variant na po. At nakakalungkot po, officials po mismo ang nag-allow lalo na po yung first kagawad po lagi kong nakikita dun, nakikipaglaro sa mga bata. Of course, iisipin po ng mga tao, safe na po at okay na maglaro at lumabas ng walang mask kasi sila po mismo ang nagpapasimuno ng ganung activities.

Almost or more than a week na pong nangyayari ito that's why it's alarming.

Here are some of the pictures po:

TINGNAN: Covid-19 diagnostic team ng Aringay, La Union, tumatawid ng ilog at umaakyat ng bundok para sa contact tracing at swab testing.

Pagsakay sa balsa at pag-akyat ng bundok habang nakasuot ng PPE ang sakripisyo ng grupo para marating ang mga close contact ng mga Covid-19 positive sa lugar.

Ayon sa kanilang team leader na si Nurse Paul Augusto Magno, tatlong beses sa isang linggo nila ito ginagawa simula noong August 2020.

"Yun po yung nakalagay sa oath namin na ipo-provide namin yung best health care kapag nasa community as community nurse. Sa part na yun nakakaproud kasi kahit delikado basta na reach mo yung goal mo satisfying na rin po."

Saludo si Dr. Rolando Mallari, Health Program Officer ng Aringay, La Union, sa kanyang mga kasamahang todo ang dedikasyon sa trabaho.

"It's basically a picture that shows yung unconditional service ng mga ito, maski pandemic, typhoon, ganun, we respond to such activities. Ang gusto ko lang iparating siguro is, ang guro na ng mundo natin dahil sa pandemic, pero if there are people, lahat naman tayo na willing to work and give our unconditional service to humanity, mas maganda siguro ang kahihinatnan ng ating kinabukasan."

A FRONTLINER'S SACRIFICE

Ito si Glenn Domoguen, isang nurse sa COVID-19 ward sa isa sa mga pangunahing pampublikong ospital sa Maynila. Ibinahagi ng kaniyang asawa na si Che ang mga larawang ito kung saan kita ang mga kulubot sa kaniyang kamay at bakas ng face mask sa kaniyang mukha matapos ang mahabang oras na duty.

Kuwento ni Che, ang dapat na 8-hour shift ng kaniyang mister ay minsan umaabot sa 12-16 oras na duty na halos hindi na makakain o maka-ihi man lang dahil sa da... [See more](#)

Bagong pasa po ito now lang, pls pass to inform lahat ng Filipino.

"Be aware huwag kayong maniwala dyan sa vaccine nayan.

Automatic na magpa- positive ka sa covid pag tinest kahit walang sakit. Yan raw ang pinasa sa congress dito.

Malapit na nila ilabas ang vaccine ngayon na may microchip. Huwag kayong magpapa- vaccine pag lumabas nayan dyan sa Pinas,

kasi ibang klaseng needles ang ginagamit tulad sa Europe na may microchip.

Ipakalat at ipaalam nyo sa lahat ng mga kaanak nyo... Hindi yan biro,

itong virus ang way nila para ma implement ang microchip...
Yan ang makikita pag mag oopen ng website, ng US.

Nakakatakot yan pag napasa na. ...
Pwede na silang basta pumasok sa loob ng bahay mo, pag nag mandatory nayan... Tiyak, magkakaroon ng war dito sa US. Dahil maraming against sa mandatory.

Sa Canada, sapilitang pumupunta sa bahay para pilitin ang mga tao na ma test ng covid. Pag mangyari yan, lahat na bansa susunod na.

May nag test na niyan dito gamit ang papaya fruit at nagka positive ang papaya sa covid.

Ito ang sinasabi na bawasan ang bilyon bilyong tao sa mundo.

Mga kampon sila ng Diablo, lahat ng testing kits galing sa US, kaya ang mga tao di na naniwala sa numbers of covid.

Yung Dr. Fuchi na nagsabi na my vaccine na para sa covid, kasabwat siya ni Bill Gates. Si Bill Gates ang punot dulo ng lahat ng virus nayan.

Pastor kasi siya sa Illuminati, isang devil church.

Siya ang gumawa ng covid virus at dinala sa China

at pag kumalat na sa buong mundo, siya na din ang maglalabas ng vaccine, panlaban sa virus.

Plano na nila yan lahat dahil ito ang nakasulat sa revelation.

Mostly, lahat na nga ng tao dito, may baril kaya pag mag mamandatory nayan dito sa US, war talaga ang mangyaryari.

Yung mga doctors mismo ang nagsabi na di maganda ang vaccine sa katawan dahil puro chemicals ang ingredients at my biochip.

May mga videos na dinidelete na sa youtube, para hindi na mapanood ng mga tao.

Basahin nyo agad ito, bago nila burahin...
dahil lahat ng information about sa gamot ng china virus,
o sa plano ng
"WHO" AT "DOH" ,AT NG MGA GOBYERNO... PINABUBURA AGAD NLA."

SabihinMO

PAANO KAYO NAGPAPALIPAS NG ORAS NGAYONG ECQ?

Ngayong umiiral ang enhanced community quarantine o ECQ sa Metro Manila ay limitado ang paggalaw ng publiko sa labas ng kanilang mga bahay at sarado rin ang mga indoor at outdoor tourist spots. **Ano-ano ang mga ginagawa ninyong pampalipas oras ngayong may ECQ?**
