

## A whole-of-society approach to vaccination

Fatima Lorenzo  
Founder, PAPO

**The Asia Foundation**

Improving Lives, Expanding Opportunities

The Pfizer Foundation

\*\* The consumer-based **Health Care Advocacy Project** sparked the creation of PAPO. Implemented from **2002 to 2007** by **The Asia Foundation (TAF)** with support from the **Pfizer Foundation**, the project enabled many patient groups and health NGOs.

**A COALITION OF PATIENT ORGANIZATIONS ADVOCATING FOR UNIVERSAL ACCESS TO HEALTHCARE AND ALLIED SERVICES**

## **VISION**

A unifying body with one voice that supports and strengthens patients' organizations.

## **MISSION**

To serve as a strong and active network of patient groups that will empower Filipino patients to advocate for their rights and become productive members of society.

# OBJECTIVES

## Policy Making

To actively participate in policy making decisions concerning patient rights;

## Empowerment

To provide a venue for information dissemination and education on patient rights;

## Support

To safeguard the strict implementation of laws and policies affecting patient needs;

## Partnership

To partner with local and international stakeholders in promoting patient rights;

## Inclusivity

To create a registry and database of patients and patient organizations;

To serve as a forum for discussion of issues, concerns, laws, and policies concerning patients and patient organizations.

## Accessibility

To serve as a clearinghouse of information and alerts on patient issues and concerns;

via Zoom  
Meeting ID: 3536482258

**Dr. Anna Lisa T. Ong-Lim**  
Pediatric Infectious Disease Specialist

# UNITY STATEMENT

As patients, carers and members of the Philippine Alliance of Patient Organizations (PAPO), we breathe disease and death every day. It is a struggle on all fronts - physically, mentally, emotionally, spiritually and financially. It has its disappointments but also high points as we encounter kind, healing souls along the way. But just when we thought we had it tough, COVID-19 made our fears bigger and deeper. We cannot afford another disease nor can we afford to put up a fight on all fronts. This is not our fear alone. Never in the history of mankind has there been a disease that disrupted and destroyed so many lives and hopes all over the world.

The COVID-19 vaccine is offering us hope.

It is not perfect but at this moment, it is our best chance to stop living in fear and to start living in hope. But this will not work if only a few of us choose to be vaccinated. All of us need to get the vaccine because no one is safe until everyone is safe.

PAPO stands solidly beside the experts and advocates of the COVID-19 vaccine. We invite you to join this call of unity as we launch Bakuna, Now Na to address the infodemic and help increase vaccine acceptance. Never in our history has there been a more urgent call to stand united.

Get vaccinated so together we can overcome COVID-19.

**PRETLE: Framework to  
engage various stakeholders for an  
integrated approach in developing and  
implementing an immunization/  
vaccination program.**

# WHY PARTNER WITH PAPO?

## ACCESS A NETWORK

PAP0 can connect you with a diverse network of patient advocacy organizations, healthcare professionals, and policymakers, enabling broader outreach and collaboration.

## SUPPORT ADVOCACY EFFORTS

Partnering with PAP0 can enhance your ability to advocate for improved healthcare policies, patient support, and healthcare access.

## AMPLIFY YOUR IMPACT

Working with PAP0 can increase your organization's reach and influence in the Philippines' healthcare landscape, helping you achieve your goals more effectively.

## RESOURCE SHARING

Collaborating with PAP0 may allow you to share resources, knowledge, and best practices, optimizing the use of limited resources for mutual benefit.

## GAIN INSIGHTS

PAP0 can provide valuable insights into the local healthcare system, patient needs, and regulatory developments, ensuring your efforts align with the local context.

## STRENGTHEN CREDIBILITY

Associating with a respected patient advocacy group like PAP0 can enhance your organization's credibility and reputation, which is crucial in healthcare-related initiatives.

**“Together, let us advocate for immunization  
against vaccine-preventable diseases.”**
